

ES 7028

SMAW

Type Rutile-basic

E7028

ESWECO
The Art of Welding

Description

ES 7028 is a high-recovery, iron powder LMA electrode, which gives extremely smooth fillets of equal leg length and very low emissions of fume and spatter. It is very easy to weld and is especially suitable for horizontal fillets with a leg length of 4-6.4 mm. ES 7028 is as easy to use as a rutile electrode, but the weld metal quality corresponds to that of basic electrodes. The slag is easy to remove.
